General Information

About this booklet

The information in this employee benefits booklet is important to you. It provides the information you need about the group benefits available through your employer's group plan with Sun Life Assurance Company of Canada (*Sun Life*), a member of the Sun Life Financial group of companies.

Your group benefits may be modified after the effective date of this booklet. You will receive written notification of changes to your group plan. The notification will supplement your group benefits booklet and should be kept in a safe place together with this booklet.

If you have any questions about the information in this employee benefits booklet, or you need additional information about your group benefits, please contact your employer.

Health Spending Account

General description of the coverage

The contract holder self-insures this benefit. This means that the contract holder has the sole legal and financial liability for this benefit and funds the claims. Sun Life provides administrative services only (ASO) such as claims adjudication and claims processing.

Your Health Spending Account coverage pays for services or supplies described in this section under *Eligible expenses*.

An expense is incurred on the date the services are received or the supplies are purchased or rented. Eligible expenses incurred by a dependent are also covered. Coverage applies only to expenses incurred after the employee becomes covered under the Health Spending Account and before the date the Health Spending Account ends.

A dependent is any person for whom you may claim a medical expense tax credit on your federal tax return in the taxation year. For example, this could include members of your extended family, such as your parents, grandparents or grandchildren.

The benefit year is from January 1 to December 31.

How your Health Spending Account works

Your Health Spending Account works like an expense account. Your employer will allocate plan credits to your account in the manner described under *Plan credits*.

Each time you submit a Health Spending Account claim, either for yourself or for a dependent, you will be reimbursed for eligible expenses, up to the balance of your account. If a claim exceeds your account balance, the claim will be paid up to the amount in your account and returned to you. You should submit it again once you have the additional credits required. Expenses incurred in one benefit year cannot be covered by credits received in the following benefit year.

Credits can only be used to provide reimbursement for eligible expenses. Under the Income Tax Act, the definition of eligible expenses is quite wide. These expenses are shown below. Credits

cannot be cashed out and will be lost unless used. You can avoid the loss of credits by using them before the end of the benefit year following the benefit year in which they have been allocated to your account, and before any earlier termination of this benefit or your coverage.

There are a number of reasons why the Health Spending Account is tax-effective for you. Eligible expenses are specifically limited to expenses not covered under another plan or under another benefit of this plan. If you paid for these expenses on your own, you would have to use expensive "after-tax" dollars. On the other hand, your Health Spending Account is sheltered from federal and provincial (except Québec) income tax. In most circumstances, this means that when you use plan credits to pay for expenses, you are using less expensive "pre-tax" dollars. The result is extra savings for you.

Continuation of coverage for dependents

The Health Spending Account is set up under the employee's name, and there cannot be any continuation of coverage for dependents after the employee's death. Only expenses incurred before the employee's death can be covered under the employee's Health Spending Account.

Plan credits

\$2,200 for a 12 month period, available from the start of your contract with your employer.

If your contract of employment with the employer is 12 months or greater, your plan credits are available for a 12 month period from your date of hire.

If (the remainder of) your contract of employment with the employer is less than 12 months, the amount of your plan credits will be prorated by the employer based on the number of months your contract of employment is in effect and will be available for this period from its start. *For example, if the (remainder of) the contract was for a period of four months, the prorated plan credits would be \$733.33. If you need additional information, please contact your employer.*

Eligible expenses

Coverage includes the following items provided they qualify as tax deductible medical expenses under the Income Tax Act (Canada) **and** are not payable under any other private or government plan. If the list of items qualifying as tax deductible medical expenses under the

Income Tax Act (Canada) is changed, this plan is automatically updated to reflect the changes.

When coverage ends Health Spending Account coverage will end when the employee reaches age 71. Coverage may also end on an earlier date, as specified in *General Information*.

Other coverage If you or your eligible dependents have coverage under another plan, you should submit your claims to the other plan first. Once benefits have been determined under the other plan, you can submit any unpaid portion of the claim for payment from your Health Spending Account.

When and how to make a claim To make a claim, complete the claim form that is available from your employer.

In order for you to receive benefits, we must receive the claim no later than 90 days after the earlier of:

the end of the benefit year during which you incur the expenses,
or

the end of your Health Spending Account coverage.
